### Is It Time To Upgrade Your Kitchen?

Your kitchen is the heart of your home. It is where your family gathers after a long or busy day. It is where you go to nourish and reconnect. It is where you share heartfelt stories and family recipes; it is a space that is always safe and comfortable. A space that inspires such love and joy should be a beautiful space, which is why you should consider updating your kitchen.

#### Add An Island

Islands provide ample space to entertain, prepare food, and serve food and drinks. Islands can be built in many sizes, and with many features and functions built-in. Small islands provide counter space and additional storage, and larger islands can have built-in seating, storage, and serving space.

#### Custom Kitchen Cabinetry

Cabinets play a vital role in keeping your kitchen organized. If you are tight on space or want to transform the look and feel of your kitchen, consider custom kitchen cabinetry. This includes cabinets and drawers with built-in organizational tools and with easy-reach built-in features. Also consider:

- Stylized cabinetry
- Ceiling-high cabinets
- Open shelving
- Display cabinetry with glass or semi-sheer doors

#### Mini Remodel

If your kitchen is fully functioning, but one or two changes could really help, consider a mini remodel. You have plenty of options, some of the most popular being:

- Switch out the hardware
- Paint the cabinets
- Install new cabinets
- Invest in new appliances
- Update your backsplash
- Add a new kitchen counter
- Redo the flooring
- Add a pantry
- Add new lighting
- Add a new sink
- Update the backsplash

#### Remodel And Redesign

If you find yourself in need of several of the kitchen upgrades mentioned above, it might be time for a full remodel and redesign. Also consider a full remodel if your kitchen is old, dated, or doesn't function well.

The first step in this process is to begin by determining what does and does not work well in your current kitchen. For example, the desire for larger appliances is often a primary motivation for remodeling your kitchen.

**Don't Fret About Figuring Out What You Need!**

Whether you want to make a few minor changes or a want a full kitchen remodel and redesign, leave the details to us!

We are home interior experts, who will maximize your current space and help you determine how to add-on to your current kitchen—without sacrificing too much space from the surrounding rooms. If you are inspired to update your kitchen, call Integrity Contracting and Remodeling today at 540-840-7808.
